

# A Luxurious Oasis in the Heart of Singapore - Four Seasons Hotel Singapore

Four Seasons Hotel Singapore completed its room renewal program with the unveiling of the Suite Collection. Together with the rest of the guestrooms and suites, the renovation started in early July 2018, led by the interior designers Hirsch Bedner Associates.

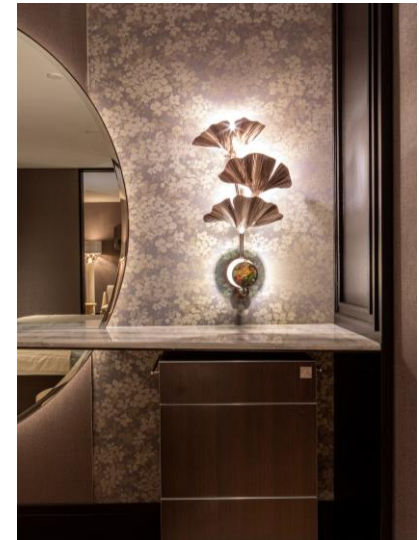

Restaurant One-Ninety, under the direction of executive chef Giovanni Speciale and senior sous chef Nicolas Owen, specialises in the classics: perfectly grilled steaks, fresh seafood and a well-priced wine list. The dining area is open but intimate, inviting you to enjoy a buffet of local and international spreads before and after your mains. Don't miss the Singapore Sling at One-Ninety Bar by Javier de la Muelas.

The spa at Four Seasons Hotel Singapore is a beautiful and tranquil place to get a quick à la carte treatment, or to relish a few hours in one of their customized spa rituals.

The hotel also features the P.S.O. Beach Club, the first of its kind in Orchard Road, offering guests the chance to relax with ambient music, cozy cabanas, sun beds, a striking pool, and a swim-up pool bar.
