

MILLIONLIGHTING

Million Lighting celebrated an evening of festivities with the relaunch of its newly renovated Lighting Gallery and the inauguration of the new home décor concept, La Maison de Million which embodies a strong conviction to enhance an evolutionary and contemporary lifestyle.

The soirée was held on **30th of March 2023**. Luminaries from the industry attended the event and the guests were impressed with the new “Lifestyle concept” which deviates from the norm in the retail landscape, which also continues Million’s ethos to bring the very best to our shores.

La Maison de Million is conceptualised to exemplify a home where you find unique objects, the stunning pieces are produced in limited quantities and are made in artisanal workshops in Europe. Million aims to keep the design industry inspired by introducing new concepts and brands in the coming years.
